Cross-Border Shipping with PGT Includes:

Flatbed Trailer Services — Offering both Through-Trailer Service (trailer loaded at the place of origin is the same trailer making the delivery) and Transload Service (shipment loaded at origin will be transferred to an outbound trailer in Laredo, TX, before continuing its journey to final destination).

Project Cargo — Fully bilingual PGT Project Cargo Team manages your project from A to Z.

Expedited Cross-Border Shipments — Prepared documentation prior to border arrival and communication directly with freight forwarders, shippers, and final customers to expedite shipments and meet deadlines.

Cargo Protection — High-value cargo escorts are available, and cargo insurance provides coverage against unexpected losses or damages during transport.

Bilingual Support — Experienced bilingual PGT representatives help streamline communication and mitigate cultural challenges.

Load Tracking — 100% of our assets are tracked via GPS.

Enhanced Driver Training — Our Mexican service providers play a critical role in our success. They are carefully chosen and held to PGT standards. We host annual safety meetings in the U.S. and Mexico, where we cover fundamental securement and tarping techniques to keep your freight safe.

Warehousing Partnerships — Bordering warehouse partnerships provide safe storage in the face of unforeseen circumstances.

CTPAT Certified — PGT is a committed member of the Customs Trade Partnership Against Terrorism program. PGT works with U.S. Customs and Border Protection and all stakeholders in the supply chain to identify security gaps and implement specific security measures and best practices, providing an extra layer of protection.
