PGT Trucking Opens Office in Monterrey Nuevo León, Mexico

Monterrey, Mexico, December 6, 2023 – PGT Trucking Inc., a multi-service transportation firm offering flatbed, dedicated, international and specialized services announced the opening of a new office location in Monterrey Nuevo León, Mexico.

“PGT Trucking is strategically developing the Southwest region to align with the rapid growth of Mexican manufacturing,” said Omar Davila, PGT Vice President, Cross Border Operations. “Our Monterrey team will be essential in supporting the growing needs of our customers into and out of Mexico.”

Monterrey is home to global manufacturers from every major industry, including aerospace & defense, electronics, medical devices, automotive and more, many of which fit PGT’s book of business. The office space, located within the IZA Business Centers’ Torre Gia building, allows for adequate growth and can accommodate meetings with current customers and prospects.

Earlier this year, PGT broke ground on a 7.73-acre logistics center in Laredo, Texas within the Pinnacle Industry Center, and it is set for completion in Q2 2024.

“The addition of our Mexico office, and the anticipated grand opening of our Laredo facility have positioned PGT Trucking as a leading flatbed carrier of cross-border freight,” added Davila. “We look forward to continued growth and opportunities in 2024.”

PGT Trucking has successfully operated in the Southwest region for more than 25 years, moving over 5,300 cross-border loads annually.
